The Parish Clerk
Thorverton Parish Council

6 Dec 2017

Dear Alison,

Re. the village Post Office

Earlier in the year, when I briefed the Parish Council about the history and future of the Thorverton Post Office, the then Chairman, Stuart Crang, suggested, in the context of a possible future permanent building for the Post Office, that if this were to be built on Parish Council land (for example in the Quarry Car Park) then the Parish Council should retain ownership of the building.

At a meeting of the Board of Directors of TCT Ltd last month, we discussed this and resolved to approach the Parish Council to discuss it further. We presumed that retention of ownership would involve the Parish Council in raising, by some means, the money required to erect such a building, which would help to remove one of the obstacles to providing permanent accommodation (money).

Whilst there is no immediate necessity to provide a replacement for the Portacabin, it is unlikely to last forever, and if there is a viable route to providing a permanent building, we feel we should pursue it. I am therefore writing to you, on behalf of the Directors, to ask that the Parish Council consider whether they would be willing to take this idea forward, and if so how we should work together to pursue it.

Yours sincerely,

Royston

ROYSTON KERSHAW DIRECTOR and TREASURER
