

Parishioners.

One of the council's main aim is to make Thorverton a safer place to live. We have spoken about the amount of traffic that uses this village and the increased speeds that are seen daily. We would like to consult with you all about launching a '**20 is Plenty**' project.

Our idea is very similar to what Bradninch have done and this is to have signage around the town and on the main roads in and out. These signs will be a similar size to a 'for sale' board with a visual 20 in a green circle on a yellow board.

If anyone has any questions, comments or would like to help in any way regarding this project then please feel to comment below or email Councillor Mckee on [AdamAMckee@outlook.com](mailto:AdamAMckee@outlook.com)
